Belle Époque announces Bon Ap-petit menu

It takes a very special French bistro to please the most discerning of diners – the pint-sized variety. The all-new children's menu at Belle Époque French Bistro at Emporium does just this – it offers authentic, wonderfully prepared French cuisine for the littlies, a perfect introduction to the delights of European flavours.

And it's just in time for School Holidays!

Usually, combining "children" and "restaurant" in the same sentence, conjures images of a 5pm crawl-over-the-chairs crowd, but not anymore. Belle Époque's romantic turn-of-the-century setting and decadent French fare will transport to the whole family to the boulevards of Paris. No longer do the little ones have to miss out on bona fide French food that is not often synonymous with tiny taste-buds.

While the grown-ups embark on a culinary Tour de France through an exquisite a la carte menu showcasing a rustic repertoire of French fare including the quintessential French favourites Foie Gras and Escargot, the younger members of the family can savor Crumbed Organic Chicken Fillet with French Fries and Green Salad or the Beef Steak served with Mashed Potatoes or Fries.

From the smell of freshly baked baguettes wafting through from the neighboring Boulangerie and Patisserie, to the accented wait staff and the rich texture-driven decor that characterized 1920's Paris, one needs only to swing open the grand double doors to see that Belle Époque has that certain je ne sais quoi about it.
